trainer/instructor from a nationally recognized organization, such as POST, international Accessments of Emergency (Dispatch ("AECP), NENA, APCO, or another organization approved in advance by the 913. Division. c) Meets the APCO Minimum Training Standards for Public Safety Telecommunicators as set forth in the APCO ANS 3.103.2.2015 or the NENA Minimum Training Standards. PSAPs are allowed to exempt non-citizen telecommunicators who were hired prior to April, 2018 who obtain certification through another source such as APCO or NENA. 76 The PSAP shall not intentionally manipulated 911 call counts of other data. Examples include by APCO or NENA. 77 In a possible of the Communication of the Communication of the data. Examples include by are not limited to manipulating ECaT's services to include 10-digit phone numbers in 911 call counts and or another to the communication of the	
Safety Telecommunicators as set forth in the APCO ANS 3.103.2.2015 or the NENA Minimum Training Standards. PSAPs are allowed to exempt non-citizen telecommunicators who were hired prior to April, 2018 who obtain certification through another source such as APCO or NENA. The PSAP shall not intentionally manipulate 911 call counts or other data. Examples include, but are not limited to, manipulating ECaTS services to include 10-digit phone numbers in 911 call counts of other data. Examples include, but are not limited to, manipulating ECaTS services to include 10-digit phone numbers in 911 call counts and/or making non-emergency 911 calls/texts by PSAP or other governmental employees (mandarde test calls/texts not included). Ninety percent (90%) of all 911 calls arriving at the PSAP shall be answered within fifteen (15) seconds and ninety-five percent (90%) of calls arriving at the PSAP shall be answered within twenty (20) seconds. This standard will be measured using the PSAP Answer Time 'report available through ECaTS. For purposes of compliance with this minimum standard, the following criteria should be used when generating the report: Select Bange - Last Year (January-December), Period Groupext, Call Type - 911 calls; Abandoned Filter - Schude Abandoned, Agency Affiliation-Default except unselect training. For the purpose of compliance with this standard, the box showing the "% ariswer time < 15 seconds" and "% answer time < 20 seconds" under the "Overall Percentage" will be used. 188 If the transfer of a 911 call has to occur, the PSAP shall follow the NENA Call Answering Standard/Model Recommendation. 189 The PSAP shall maintain a comprehensive resiliency and back-up plan to mitigate events that may disrupt 911 service to a community, bits may include, but is not limited to, major community, bits may include, but is not limited to, major community, bits may include, but is not limited to, major community, bits may include, but is not limited to, major community, bits may include, but is not limited	
who were hired prior to April, 2018 who obtain certification through another source such a APCO or NRAN. 76 The PSAP shall not intentionally manipulate 911 call counts or other data. Examples include, but are not limited to, manipulating ECaTS services to include 10-digit phone numbers in 911 call counts and/or making non-emergency 911 calls/fexts not include 10-digit phone numbers in 911 call counts and/or making non-emergency 911 calls/fexts by PSAP or their object of the properties (mandated test calls/fexts not include). 77 Ninety percent (90%) of all 911 calls arriving at the PSAP shall be answered within fifteen (15) seconds and ninety-five percent (95%) of calls arriving at the PSAP shall be answered within the propose of compliance with this instandar with be measured using the "PSAP answer Time" report available through ECaTS. For purposes of compliance with this instandar (Insurary December). Period Group-Year, Call Type -911 calls; Abandoned Filters - Exclude Anadoned; Agency Affiliation - Default except unselect training. For the purposes of compliance with this standar, the bos showing the "% answer time < 15 seconds" and "% answer time < 20 seconds" under the "Overall Percentage" will be used. 88 If the transfer of a 911 call has to occur, the PSAP shall follow the NEMA Call Answering Standard/Model Recommendation. 89 The PSAP shall maintain a comprehensive resiliency and backup up han to mitigate events that may disrupt 911 service to a community, this may include, but is not limited to, major	
other data. Examples include, but are not limited to, manipulating CEATs services to include Jo-digit phone numbers in 911 call courts and/or making non-emergency 911 calls/texts by PSAP or other governmental employees (mandated text calls/texts not included). 77 Ninety percent (90%) of all 911 calls arriving at the PSAP shall be answered within fitteen (15) seconds and ninety-five percent (90%) of calls arriving at the PSAP shall be answered within twenty (20) seconds. This standard will be measured using the "PSAP Answer Time" report available through ECATS. For purposes of compliance with this minimum standard, the following criteria should be used when generating the report. Select Range - Last Year (January- December), Period Group- Year (call Type - 911 calls; Abandoned Filters - Exclude Abandoned; Agency Affiliation - Default except unselect training for the purposes of compliance with this standard, the box showing the "% ariswer time < 15 seconds" and "% answer time < 20 seconds" under the "Overall Percentage" will be used. 88 If the transfer of a 911 call has to occur, the PSAP shall follow the NEMA Call Answering Standard/Model Recommendation. 89 The PSAP shall maintain a comprehensive resiliency and back- up plan to mitigate events that may disrupt 911 service to a community, this may include, but is not limited to, major	
be answered within fifteen (15) seconds and ninety-five percent (95%) of calls arriving at the PSAP shall follow answered within twenty (20) seconds. This standard will be measured using the "PSAP Answer Time" report available through ECaTs For purposes of compliance with this minimum standard, the following criteria should be used when generating the report Select Range - Last Year (January-December). Period Group-Near; Call Type - 911 Calls; Abandoned Filters - Exclude Andended, Agency Affiliation - Default except unselect training. For the purposes of compliance with this standard, the box showing the "% answer time < 15 seconds" and "% answer time < 20 seconds" under the "Overall Percentage" will be used. 88 If the transfer of a 911 call has to occur, the PSAP shall follow the NEMA Call Answering Sandard/Model Recommendation. 89 The PSAP shall maintain a comprehensive resiliency and back-up up han to mitigate events that may disrupt 911 service to a community, this may include, but is not limited to, major	
the NENA Call Answering Standard/Model Recommendation. 199 The PSAP shall maintain a comprehensive resiliency and back- up plan to mitigate events that may disrupt 911 service to a community this may include, but is not limited to, major	
up plan to mitigate events that may disrupt 911 service to a community, this may include, but is not limited to, major	
equipment failures, Eacility issues, natural or man-made disasters or any other event that reduces or eliminates the performance ability of the PSAP.	
Best Practices #I The ISA's should accept text-to-911 and adopt standard Y 12 None N/A operating procedures for handling the text calls.	
The PSAP should adopt an Acute Traumatic & Chronic Stress Y 12 None N/A Management Standard, which may include the Utah Critical Incident Stress Management Team. Any adopted standard should call for local staff to assume taks responsibility for implementation and evaluation of all elements of the Comprehensive Stress Management Programs ("CMP"). Such tasks would include procuring CSMP Funding, identifying and coordinating CSMP resources and facilitating access to related services including Peer Support, Critical Incident Stress Management, local mental health trauma therapists, and other elements of the CSMP.	
The PSAP should have up-to-date Policies and Procedures Y 12 None N/A including those policies and procedures found in NENA's 91-12 Center Operations Standards PSAP Operations St99 located at https://www.nena.org/page/OperationsStandards	
The PSAP should be managed/supervised by an individual possessing one or more of the following advanced certifications: NEAV Center Manager Certification Program ("CMCP"), NENA Emergency Number Professional ("ENP"), APCO Registered Public-Safety Leader ("PRP") and That manager's purpervisor shall be provided funds by the PSAP to support membership in industry associations and ongoing training and education appropriate for their position and responsibilities.	
F5 The PSAP should report to AGRC each error it identifies in the N/A N/A N/A N/A N/A N/A
